Multi-stakeholder Engagement for the Sustainable Development of UNESCO Designated Sites

Philippe Pypaert
Head of the Natural Sciences Unit
UNESCO Beijing Office

AGENDA 2030 - SUSTAINABLE DEVELOPMENT GOALS

1 NO POVERTY

2 ZERO HUNGER

3 GOOD HEALTH AND WELL-BEING

4 QUALITY EDUCATION

5 GENDER EQUALITY

6 CLEAN WATER AND SANITATION

7 AFFORDABLE AND CLEAN ENERGY

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

10 REDUCED INEQUALITIES

11 SUSTAINABLE CITIES AND COMMUNITIES

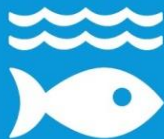

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

14 LIFE BELOW WATER

15 LIFE ON LAND

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

17 PARTNERSHIPS FOR THE GOALS

**SUSTAINABLE
DEVELOPMENT
GOALS**

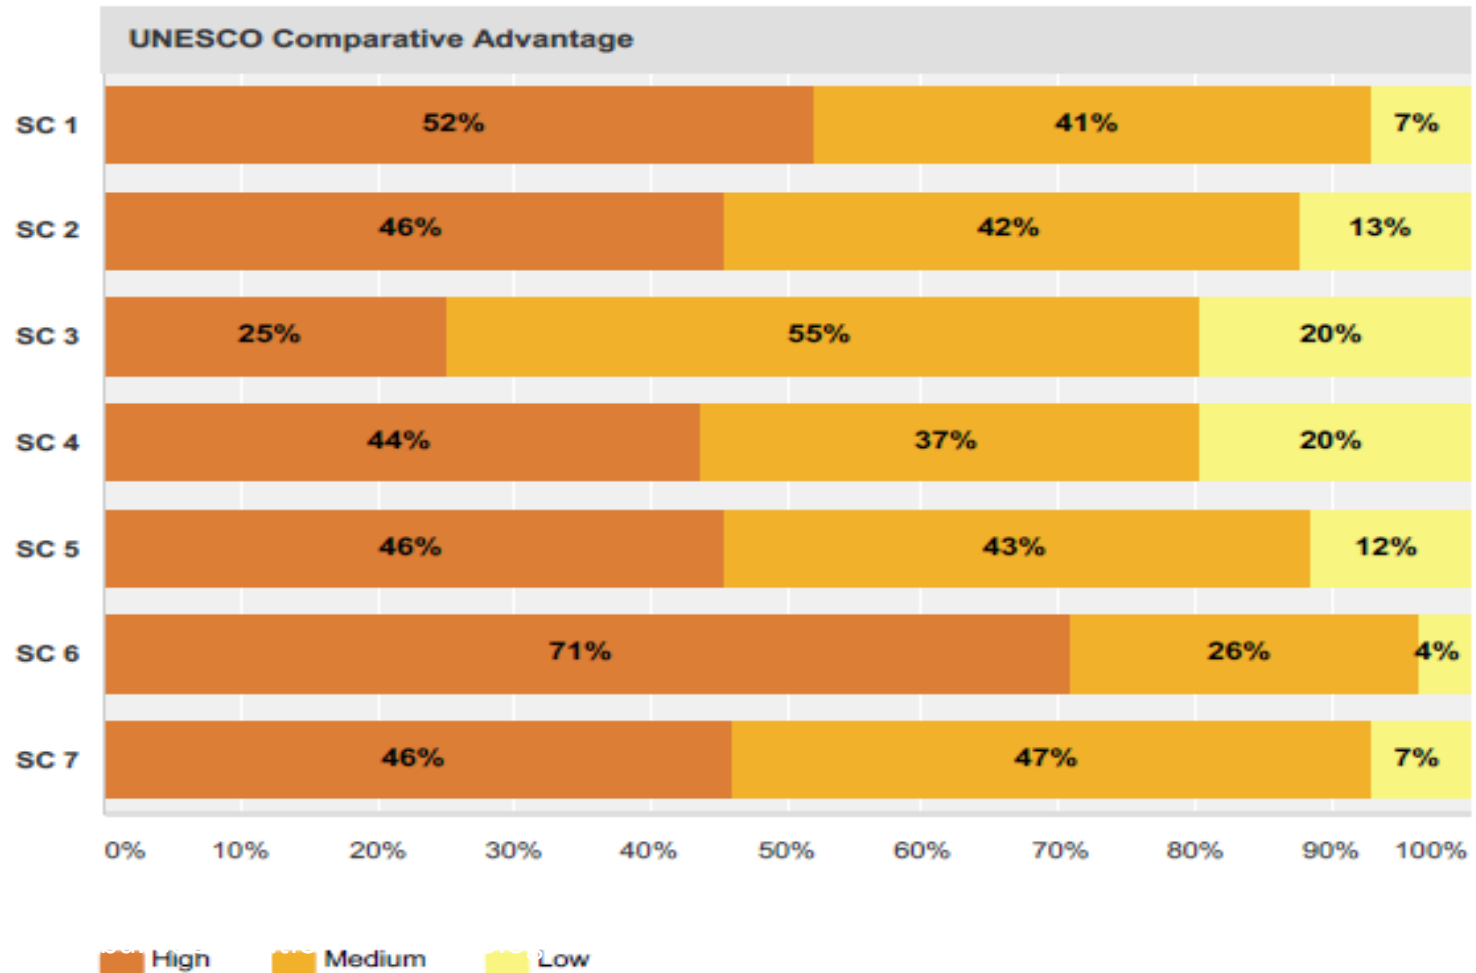

NO PEACE WITHOUT SUSTAINABLE DEVELOPMENT...

“Learning to live within the
environmental limits of our
planet and to build a just,
equitable and peaceful
society”

I. Bokova

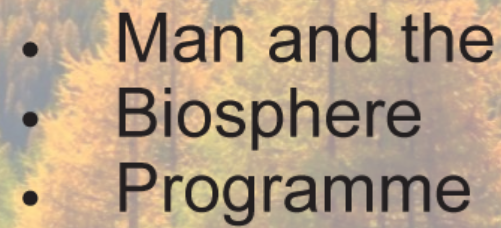

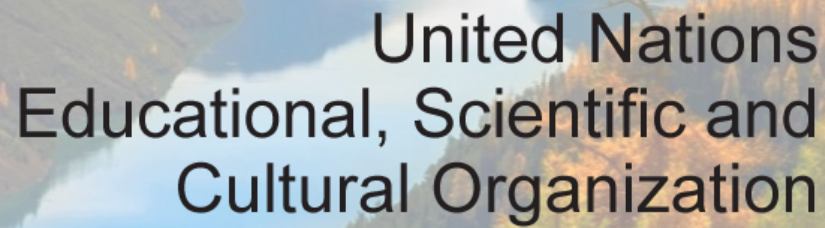

The UNESCO Designated Sites, our comparative advantage

Specific objectives (ER) inscribed in our Work Plan for 2018-2019

ER 7: Member States have increased their capacity to develop UNESCO designated sites as learning sites for inclusive and comprehensive approaches to social, environmental and economic aspects of sustainable development.

Performance indicators	Tentative targets
PI 1: Number of joint initiatives developed by UNESCO designated sites, in particular UNESCO Global Geoparks (UGG) and biosphere reserves (BR) which have demonstrated sustainable development solutions under different ecological, geological, social and cultural contexts to support the SDGs.	At least ten UGG and BR cooperating together to demonstrate sustainable development solutions.
P2: Number of meetings of the Liaison Group of UNESCO-designated sites to promote the coordination of synergies between World Heritage Sites, BR and UGG towards SDG targets.	T1: 1-2 meetings annually to recommend joint actions to identify possible overlap and promote synergies of designated sites.

BR Definition After 2015...

Biosphere reserves are 'Science for Sustainability support sites' – special places for testing interdisciplinary approaches to understanding and managing changes and interactions between social and ecological systems, including conflict prevention and management of biodiversity.

THE STRATEGY 2015-2025...

Our mission for the period 2015-2025 is to:

- develop and strengthen models of sustainable development in the WNBR;
- communicate the experiences and lessons learned (global diffusion and application of these models);
- support evaluation and high-quality management, strategies and policies for SD and planning;
- help Member States and stakeholders to urgently meet the SDGs through experiences from the WNBR, particularly through exploring and testing policies, technologies and innovations for the sustainable management of biodiversity and natural resources and mitigation and adaptation to CC.

GLOBAL
GEOPARKS
NETWORK

ABOUT UNESCO GLOBAL GEOPARK

UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of international geological significance are managed with a holistic concept of protection, education and sustainable development.

POLICY FOR THE INTEGRATION OF A SUSTAINABLE DEVELOPMENT PERSPECTIVE INTO THE PROCESSES OF THE WORLD HERITAGE CONVENTION

This policy document was adopted by the General Assembly of the States Parties to the Convention at its 20 Session (Paris, 2015), by its Resolution 20 GA 13.

United Nations
Educational, Scientific and
Cultural Organization

World
Heritage
Convention

In addition to protecting the OUV of World Heritage properties, States Parties should, therefore, recognise and promote the properties' inherent potential to contribute to all dimensions of sustainable development and work to harness the collective benefits for society, also by ensuring that their conservation and management strategies are aligned with broader sustainable development objectives. In this process, the properties' OUV should not be compromised. (Art. 4)

POLICY FOR THE INTEGRATION OF A SUSTAINABLE DEVELOPMENT PERSPECTIVE INTO THE PROCESSES OF THE WORLD HERITAGE CONVENTION

This policy document was adopted by the General Assembly of the States Parties to the Convention at its 20 Session (Paris, 2015), by its Resolution 20 GA 13.

United Nations
Educational, Scientific and
Cultural Organization

World
Heritage
Convention

States Parties should further recognise that, for many World Heritage properties, achieving sustainable development will require acting at a scale that is much larger than the property itself and that, in the process, some dimensions of sustainable development may prove to be of greater relevance than others. Thus, States Parties should integrate conservation and management approaches for World Heritage properties within their larger regional planning frameworks, giving consideration in particular to the integrity of socio-ecological systems. (Art. 10)

Multi-stakeholder involvement in management is a MUST when...

- Sites are large and/or complex territories, covering more than one administrative entity;
- Management responsibilities are therefore shared by more than one administrative/managerial entity;
- Purposes/objectives of management are multiple, in particular when referring to achieving SDGs;
- Concerned sectors of society are many.

IL RESPONSABILE DEL SERVIZIO
INFORMAZIONI URBANE

Uff. Giorgio De Vito

PER L'INDIVIDUAZIONE DEL SOGGETTO REFERENTE DEL SITO UNESCO
"VENEZIA E LA SUA LAGUNA" ai sensi della Circolare del 30 maggio 2007 prot. n.
24098 del Segretario Generale del MIBAC

Premesso che:

- il 16 novembre 1972 la Conferenza Generale dell'Organizzazione delle Nazioni Unite per l'Educazione, la Scienza e la Cultura - United Nation Educational, Scientific and Cultural Organization (d'ora in avanti UNESCO) ha adottato la Convenzione sulla protezione del patrimonio culturale e naturale mondiale, firmata a Parigi il 23 novembre 1972;
- con legge del 6 aprile 1977, n. 184, l'Italia ha ratificato e dato esecuzione alla Convenzione di Parigi dell'UNESCO;
- nel 1987 "Venezia e la sua laguna" è stata inserita nella Lista del Patrimonio mondiale dell'umanità (World Heritage List) dell'UNESCO;
- l'area del suddetto sito si estende a comprendere i territori di 2 Province, 9 Comuni, tutti compresi nel territorio della Regione Veneto, dei quali il Comune di Venezia ricopre il ruolo istituzionale più rilevante per competenze territoriali e legislazione in materia di salvaguardia del patrimonio architettonico e ambientale, nonché storicamente principale referente verso l'UNESCO per il sito di cui sopra;
- l'UNESCO ha stabilito nel 2002 che l'inclusione di nuovi siti nella Lista del Patrimonio Mondiale debba essere necessariamente subordinata alla predisposizione di Piani di Gestione;
- l'UNESCO nel 2004, ha raccomandato tale adempimento anche ai siti già inclusi nella Lista;

in corso di attuazione (sufficiente)

Working towards achieving SS calls for innovation in management approaches

1. From top down to bottom up and community based conservation
2. From enforcement of laws to voluntary cooperation towards common goals
3. From management plans to management systems
4. From sectoral instruments to integration mechanisms

Coordination and integration in practice

1. Mapping the responsibilities
2. Sharing a vision - Agreeing on objectives
3. From Management Plan towards Sustainable Development Plan
4. The integration of conservation and SD objectives into existing sectoral and land use plans as well as development projects

Coordination and integration in practice

- 
1. Mapping the responsibilities
 2. Sharing a vision - Agreeing on objectives

A photograph of a modern outdoor furniture set. A white modular sofa is positioned on a wooden deck, with a small tag attached to its side that reads "Eco-Design Week". To the right, a green folding chair is partially visible. The background is a lush, green landscape with trees and grass, suggesting a park or natural setting. The text "ECO DESIGN WEEK" is overlaid in large white letters on the left side of the image, with "DELTA DEL PO" in smaller white letters below it.

A detailed map of the Venetian region in Italy, showing its administrative districts. The map is color-coded: green for mountainous areas, light green for plains, and blue for water bodies. Three specific locations are highlighted with red dots and leader lines pointing to text boxes on the right. The districts are numbered from 02 to 39, with some numbers appearing twice. The labels in the text boxes are: 'Dolomites' (pointing to district 01), 'Venice and its Lagoon' (pointing to district 27), and 'Po Delta' (pointing to district 39).
